

# Davis County Vision/Values 2007

*We are a County recognized for having the following:*

## **Countywide Economic Development Planning**

We believe that countywide proactive planning is critical to guide our future economic development. We design our plans to anticipate change, overcome obstacles and seize economic opportunities.

## **Unity and Action**

We are united throughout the County to a common vision of our economic future which supports the uniqueness of our various cities.

## **Impact and Influence**

We strive to influence city and county economic development decisions, as well as regional and state economic and educational policies and programs with our vision and plans.

## **Robust Employment Opportunities**

We seek to increase family sustaining employment opportunities for our residents and those that commute into our county.

## **Expanding Economic Base**

We seek to develop an expanding economic base that is increasing by attracting targeted businesses and industries which conform with our community values; by expanding our current employers and; by creating high growth start-up businesses.

## **Quality of Life**

We believe that our quality of life contributes directly to economic development by ensuring that within our county there is affordable housing; excellent education, care for our aging population, improving systems of transportation, broadly accessible internet services, preserved open space and recreational and cultural opportunities.
